

Independent Learning Project Summer 2

Year 3

Scavengers and Settlers

During the school holidays you may want to do some additional learning in preparation for your new unit **'Scavengers and Settlers'**. Below are some ideas but you can also let your imagination go wild! We would love to see what you do, maybe a poster, photos, a presentation, a model.... We hope you have lots of fun getting ready for your next bit of Learning!

Scavengers and Settlers Summary

We will be learning about how historians find out about the past civilisations and what clues we can uncover about the people that lived during different eras from the evidence that has been left behind. We will be historians and explore how early humans adapted and developed new skills in order to survive, as well as exploring the different settlements they created long ago. We will also be finding out about our ancestors, who they were and what they did during three key eras: the Stone Age, Bronze Age and Iron Age. Are our ancestors different to the people that live today? What is similar/different about our lives and the lives of the earliest humans?

Project Ideas

- Why would people migrate?
- What would the diet look like in the stone/bronze/iron age?
- How does your life now compare to the stone/bronze/iron age?
- Find out or plan an event for a charity that provide humanitarian aid
- Build a den/camp outside

What ideas do you have?

Please bring your projects in to school the first week back!
