

Independent Learning Project Autumn 1

Year 5

Space Scientists

During the school holidays you may want to do some additional learning in preparation for your new unit 'Space Scientists'. Below are some ideas but you can also let your imagination go wild! We would love to see what you do, maybe a poster, photos, a presentation, a model... We hope you have lots of fun getting ready for your next bit of Learning!

Space Scientists Summary

We will be learning about Earth, the planet we all call home: its relationship with the Sun and Moon; what it is made of, and how our understanding of the solar system has changed over time. Is earth the best planet for human survival? Why? We will be scientists, historians, designers and artists to understand more about the planet where we live. What do you think makes our planet special?

Project Ideas

- What makes our planet special?
- What can you find out about the International Space Station?
- Draw a diagram of the Solar System
- Find out about a journey to space
- Listen to space themed music
- Paint/draw a picture of Earth from space
- What facts can you find out about space?
- How do we know about space?
- Find out about a famous scientist with links to space
- Make a model of a spacecraft

What ideas do you have?

Please bring your projects in to school the first week back!
