

Independent Learning Project Autumn 2

Year 5 Applied Art

During the school holidays you may want to do some additional learning in preparation for your new unit 'Applied Art'. Below are some ideas but you can also let your imagination go wild! We would love to see what you do, maybe a poster, photos, a presentation, a model... We hope you have lots of fun getting ready for your next bit of Learning!

Applied Art Summary

Art can often be seen as having the main purpose of pleasing the eye or being decorative. However, art is all around us and one particular type of art involves things we use in daily life, this is called applied art. It's not difficult to understand that we prefer things we use every day to look nice and as not everybody likes the same style, the variety is endless. Applied art is the part of art that comes closest to design. How do we make something that looks nice, but is also functional and meets its purpose? What is more important, the way an object looks or the way it works?

Project Ideas

- What does an architect do?
- If you could design your own home, what would it look like?
What would you have in it?
- Redesign a classroom
- Who is James Dyson? What can you learn from him?
- What is Graphic Design?

<https://www.youtube.com/watch?v=dFSia1LZI4Y>

- What is your favourite outfit to wear and why?
- What different ways can you form pottery?

What ideas do you have?

Please bring your projects in to school the first week back!
