

Independent Learning Project Spring 2

Year 2 Live and Let Live

During the school holidays you may want to do some additional learning in preparation for your new unit 'Live and Let Live'. Below are some ideas but you can also let your imagination go wild! We would love to see what you do, maybe a poster, photos, a presentation, a model.... We hope you have lots of fun getting ready for your next bit of Learning!

Live and Let Live Summary

In Live and Let Live, we will be learning about living things and what they need in order to survive. How do we know what living things need? How do you know that you are alive, but a stone has never been alive? To find out the answers to these questions, we will need to be scientists, geographers and ecologists.

Project Ideas

- Visit a Zoo, Wildlife Centre or Nature Reserve
- Research a living thing
- Sketch a living thing
- Sort groups of living things
- What questions would you like to answer during this unit?
- How could we help and protect wildlife at school?
- Create a poster about an endangered or extinct living thing
- Fact file about a habitat
- Learn about The Little Earth Charter

https://www.littleearthcharter.org/LEC_home.html

What ideas do you have?

Please bring your projects in to school the first week back!
