

Independent Learning Project Spring 2

Year 6 Earth as an Island

During the school holidays you may want to do some additional learning in preparation for your new unit 'Earth as an Island'. Below are some ideas but you can also let your imagination go wild! We would love to see what you do, maybe a poster, photos, a presentation, a model.... We hope you have lots of fun getting ready for your next bit of Learning!

Earth as an Island Summary

What impact have humans had on the world's islands? We will be learning about how islands, often once isolated places, have become increasingly part of the global community. How has this changed their culture, geographical features and ecosystems? As we go island hopping, we will need to be geographers, designers and artists who are internationally minded and globally competent.

Project Ideas

- Create a fact file/poster about an Island or collection of Islands
- What is the largest/smallest Island?
- What makes an Island an Island?
- How many different types of Islands exist?
- Create a Quiz about Islands
- Design your own Island
- Create a Vocabulary List for Islands Learning
- Create Island Inspired art
- What are the Sustainable Development Goals? Which relate to Islands?
- Promote a Sustainable Development Goal
- What's your diet's carbon footprint? What changes could you make?
<https://www.bbc.co.uk/news/science-environment-46459714>
- Find out about Henderson Island. Why was the Island abandoned?

What ideas do you have?

Please bring your projects in to school the first week back!
